

## How to restart your internet connection

If you're offline, please follow the steps below as they may resolve any potential faults. If issues persist, please call us on **1300 759 637**.

- 1 First, turn off your nbn® connection box and your wireless router.
- 2 Wait for about **10 minutes**.
- 3 Turn your nbn® connection box back on.
- 4 Wait another minute, then turn your wireless router back on.

Note: Please refer to the cabling setup provided on the 'How to Connect' page. This cabling setup is essential for an active connection.

**Tenda V12 - FTTC**

# WiFi Router Setup Guide

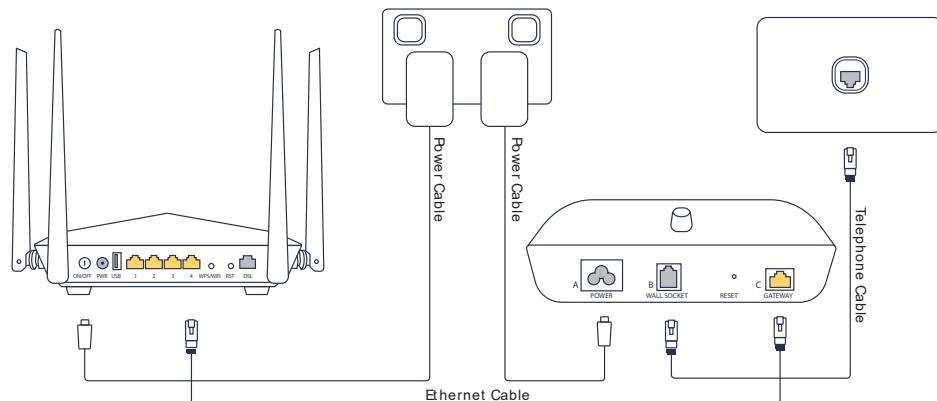

Please don't throw me away

# How to connect

## Setting up your new router

Skymesh routers arrive pre-configured. Simply plug in the supplied cables as per the diagram, switch on the new router and connect to it using the supplied WiFi password.

Note: This cabling setup is essential for an active connection. Please avoid changing the cabling setup below to prevent disconnection.

**Tenda V12**

Please plug into the yellow port number 4

**nbn® Fibre to the Curb installed connection box**

Please plug into the Gateway port

## Warranty

Your new router comes with a 3-year advanced replacement warranty for full peace of mind. More information on our warranty can be found at [skymesh.net.au/warranty](http://skymesh.net.au/warranty)

## Understand your nbn® connection box lights

Learn more about your nbn® connection box. If you are offline, please check the cabling setup on the 'How to Connect' page and restart your internet connection. If issues persist, please call us on 1300 759 637.
